

TRAN THI NGOC THU

Business Analyst Intern

Ho Chi Minh City, Vietnam | +84 584 138 563 | tranthingocthuolvy1234@gmail.com | LinkedIn | Portfolio

SUMMARY

Technology & Innovation student at UEH and Business Analyst Intern with hands-on experience in requirement gathering and analysis, product documentation, workflow analysis, and translating business needs into user stories and acceptance criteria. Currently supporting an Enterprise Document Management System through requirement clarification, feature analysis, and BA documentation. Interested in IT product development, Agile delivery, product discovery, workflow automation, and AI-enabled solutions, with a strong problem-solving and product-oriented mindset.

EXPERIENCE

SAIGON A.I. - Business Analyst Intern

May 2026 – Present

Enterprise Document Management System

- Analyzed 10+ core FusionDocs features to identify functional requirements, edge cases, and gaps across permissions, workflows, semantic search, and document management.
- Produced 8+ BA artifacts and 11 user stories with acceptance criteria, translating product findings into clear, testable requirements for development and validation.
- Defined and documented 7 complex permission decision cases, covering access conflicts, inheritance, form-field security, validation, and search visibility for stakeholder review.

PROJECTS

VirtuHire - AI-Powered VR Interview Simulator

Apr. 2026

Business Analyst / Technology & Innovation Coursework

- Gathered requirements from 3 stakeholder groups to define candidate-facing features, interview setup flows, AI feedback logic, and performance report structure.
- Developed user stories, acceptance criteria, use case diagrams, and sequence diagrams for a 5-stage STT – LLM – TTS voice interaction workflow, clarifying user actions, system responses, AI feedback logic, and report outputs.
- Identified open requirements around role/language selection, voice interaction, AI feedback quality, and report usability to support prototype validation and future requirement refinement.

UEH Smart Parking System - Hybrid IoT Solution

Apr. 2025

Business Analyst / Human-Computer Interaction Coursework / Figma

- Analyzed parking workflows affecting 500+ daily users and mapped AS-IS/TO-BE processes to identify manual bottlenecks and automation opportunities.
- Translated key issues into business, functional, integration, and non-functional requirements for LPR/NFC gate access, cashless payment, real-time slot tracking, notifications, and dashboard visibility.
- Designed product flows and 5+ Figma wireframes to clarify user experience, system behavior, and operational edge cases.

EDUCATION

University of Economics Ho Chi Minh City (UEH)

2023 – Present

B.Sc. in Technology & Innovation

GPA: 3.6/4.0

Relevant Coursework: Business Intelligence, Data Visualization, Data Science, Human-Computer Interaction, AI for Business, Mobile Application Development, Corporate Finance.

ACHIEVEMENTS

Youth Digital Citizen Challenge (YDCC) - Top 40 Nationally

Feb. 2026

- Defined high-level requirements and TO-BE workflows for a data-driven carbon credit verification system targeting Mekong Delta farmers.
- Analyzed 979 spatial time-series records across 11 fields to define business rules for satellite-based verification.
- Built and pitched an MVP business case within 48 hours, achieving Top 40 nationally.

SKILLS

Business Analysis: Requirement Gathering, Requirement Analysis, User Stories, Acceptance Criteria, Workflow Analysis, AS-IS/TO-BE Mapping, Process Mapping, Gap Analysis, Use Cases, Feature Validation, UAT Support, BRD/PRD Support.

Product & Delivery: Agile/Scrum, Software Development Life Cycle (SDLC), Product Discovery, Design Thinking.

Technical: SQL, Python Basics, Database Fundamentals, Firebase, Git/GitHub, Technical Documentation.

Tools: Microsoft Excel, PowerPoint, Google Docs, Figma, Draw.io, Lucidchart, Notion, Tableau.

Languages: Vietnamese (Native), English (TOEIC 770).

CERTIFICATIONS

Google Project Management Professional Certificate (Coursera) | Associate Data Analyst in SQL (DataCamp) |
Microsoft Office Specialist (MOS) | Crash Course on Python (Google)
